Allowable Subject Matter

Claims 1-35 are allowed. Applicant's arguments filed 3/12/04 regarding the 103 rejection of claims 1-8, 10-17, and 19-35 as being unpatentable over Dragoo USPN 6229061 were persuasive. The following is an examiner's statement of reasons for allowance: Regarding claims 1-21, applicant's arguments, specifically page 10 are persuasive, therefore, the overall claimed combination of a method of providing a series of at least three different types of pant-like garments including conveying information indicating greater applicability of one of the types of pant-like garments over the at least two other types is neither anticipated nor rendered obvious by the prior art of record. Regarding claims 22-35, applicant's arguments, on page 11 were persuasive. The examiner has reviewed the written description and found that applicant provides support for the argument and the written description, page 18, lines 1-20, sets forth a special definition for the term "size" in the claims. The prior art does not teach or render obvious a method of providing a series of training pants where the series includes at least three garments differing in size as defined in applicant's disclosure, and level of absorbency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
